I have seen first hand the negative impact that not having building codes has on consumers.

Although the rest of this email is boilerplate that you have already seen it nevertheless is an accurate statement of my belief. I urge you to support maintaining the Kootenai County Building Codes and to support the adoption of new versions of the building code, all as stated by Idaho statute (Section 39-4116).

I am opposed to abolishing the codes and relying on voluntary compliance and also opposed to any exemption for single-family homes from the permit review process.
