Subject: Kootenai County Building Codes
Date: Tuesday, February 20, 2018 11:51:09 AM

Dear Board of Commissioners,

Please do not repeal building code compliance. Action to do so would have a great negative effect in the long run, including effecting property values for residents, and possibility of introducing safety issues. The reality of the current situation is that much of Kootenai County is no longer rural, like it or not, that is going to continue to be the case, and you need to be responsible to your citizens by keeping buildings safe. Without the permitting process, this would not be the case.

Thank You,

Ben Weaver
Kootenai County Resident
