Hi Mark:

Just read your great article regarding the ICC Codes in the County. I recall them being adopted when Dan Green was County Commissioner too. Thanks for the well written article. I will share that with others.

<http://gemstatepatriot.com/blog/there-oughta-be-a-law/>

On another topic, I noticed in the Worley Highway District minutes that they will be sending the Commissioners a letter opposing eliminating them from the subdivision process. Boy, would I support that. When we subdivided our land, they took an additional 15 feet of frontage (without compensation), restricted a road access to the adjoining property that necessitated us to have a small road set in and other restrictions that eventually increased our taxes on that piece because it was "DEVELOPED". What a circus. If you need someone to support you in this situation, let me know.

Blessings,

Lorri Erickson

p.s. THANK YOU for running again. You are a brave soldier.
