Comment: I support Commissioners Bob Bingham and Marc Eberlein proposals that would allow the property owner the option of having the county inspect the construction, hiring a private inspector, or inspecting the work themselves. The current rules have no value or protection to the home owner or a new buyer, if something goes wrong guest who pays, not the County inspector, Bank, or Contractor. It's the home owner, plus the price of a new permit and inspection. It's pretty much like Congress, they thing they have to make more rules and regulations to show they are doing their job and they are just making life harder on folks.

Full steam ahead boys, you also have my vote in May.

Chris Fillios you have been a disappointment, my hope was, you would put the county resident home/land owner first and what was actually best for them, you have not. How many Home owners have you made whole after the inspections have failed to provide what they claim? The Sky is falling Chris The sky is falling.

Thank you for taking the time to read my thoughts and comments.

Rob
