GOOD WORK KEEP GOING

as food for thought for you and Especially Chris here is the short version I will spare you the hour lecture

Where does the county get jurisdiction in a matter of inspection on property owned by me or me and the bank.

I dont see Kootenai county listed on my deed or title, and if you are getting jurisdiction from the banks then they need to pay for the permit and inspection department and be liable for it not the county.

having a building department and inspections makes you / the county ultimately liable for any thing that goes wrong, because, you approved it inspected it and signed off
