Sirs,

Thank you for reconsidering the County position on UBC. Good job.

I have lived in the county most of my 62 years and have been building here since before the codes adoption. I have built or help construct over 120 buildings and 2 subdivisions here, and have seen this "code" grow, unchecked, from onerous to the total perversion it has become today.

I have seen the "code" divisively applied and oppressively enforced, unjustly consuming citizen resources and immorally subjugating the individual. Forced compliance has damaged, destroyed, removed Constitutional and God given right, confiscating property and falsely imprisoning those who have opposed it.

My prayers are with you, as you find yourselves in this unique unconstitutional position of government "granting" individual rights, instead of insuring they not be infringed. I commend you in accepting accountability before God, for your actions and their continued consequence on those you rule and serve.

I implore you to silence past outrages and those sure to come, by ending the notorious reign of UBC and its unrighteous dominion. I am in whole hearted support of option #4, to do away with the code.

If you must spoon feed freedom to those less capable of individual accountability, I can also support Marc's option#2, and allow the individual to decide their own degree of accountability and enslavement.

Every private citizen I know in this county, echoes these choices.  
Good luck gentleman. May you find your mercy in the Lord.
