

KOOTENAI COUNTY SHERIFF'S OFFICE

Rebecca Lederle Detention Deputy

What is your favorite part of your job as Kootenai County Sheriff's Detention Deputy?

There are many aspects of my job, which I love and could not find anywhere else. Working as a Detention Deputy, every day at work is different and you never know what is going to happen. Just when you think you have experienced it all...something else happens. This job is very rewarding; you have the opportunity to impact people in the worst times of their lives. To give guidance at their rock bottom, to provide security at their weakest, and to provide assistance through the jurisdictional process.

What do you love most about working for the Kootenai County Sheriff's Office?

The aspect I love even more than my job is the team environment, which grows more into a second family. You work closely with your team of approximately ten Deputies through training and on the job. The support system is strong at the Kootenai County Sheriff's Office and is unparalleled from any other place I have worked.

What special teams are you assigned to?

Many people do not know but the Jail offers many diverse special duties, which all include their own trainings and specialties. I personally have worked in Classification, as a Jail Training Officer, and with the Recruitment Team. Other options include but are not limited to Transport, DRT, and Range Staff.
