ACKNOWLEDGEMENTS

The Board of County Commissioners expresses sincere appreciation to all those who contributed time, energy, and vision to develop this comprehensive plan.

The Planning Commission deserves special recognition for their extraordinary effort over many long evenings that they dedicated to the planning process. It was their careful, considerate review of draft elements, public comments, and the statutory requirements that led to articulation of Kootenai County's vision for the future in this plan. We sincerely thank each of you for your tremendous effort on this most difficult task.

We are also grateful to the many state agencies, city mayors, councils, managers, planners, and staff from County departments for their effort in developing and reviewing this plan.

The Board acknowledges and thanks the hundreds of citizens who attended countless public meetings, workshops, local neighborhood meetings, and public hearings. Your thoughtful review of the plan and its goals and policies have been essential to capturing the spirit and vision of what makes and will keep Kootenai County great.

Thanks to everyone who participated and contributed.
