NOTICE OF INFORMATION DISCLOSURE

NOTICE: The procedure regarding the disclosure of information contained in code files to the public under the Idaho Public Records Act, Idaho Code § 9-335 et seq. (IPRA), shall be as follows:

1. During the initial investigatory stage, the code violation file will be treated as exempt from disclosure under IPRA.
2. Once a notice of violation or stop work order has been issued, the contents of a code violation file shall be disclosed to the general public upon receipt of a public records request for that information *with the exception of complainant information. Complainant information shall be treated as exempt from disclosure under IPRA while the case is active.*
3. The contents of a closed or inactive code violation file shall be disclosed to the general public upon receipt of a public records request for that information, *including* complainant information.
4. Judicial or administrative process (including, without limitation, subpoenas, discovery requests in cases where the County is a party, orders of a court or administrative tribunal, etc.) shall be complied with even if information is exempt from disclosure under IPRA. If there is reason to believe that such a process is defective, the Director will consult with the Prosecuting Attorney to determine whether a motion to quash or other action should be pursued.
5. **EXCEPTION:** Under certain circumstances, and only as approved by the Director or Board of County Commissioners in consultation with the Prosecuting Attorney, information in a code violation file may be disclosed on a case-by-case basis even when such information would not ordinarily be disclosed to the general public.
