Since that time, prosperity, economic growth and development placed increased demands on our transportation system that is rapidly reaching its capacity. This has resulted in the inability to continue maintaining the safe and efficient movement of both people and goods in a reliable manner. This measure will authorize an increase in the annual vehicle registration fees to match competitive grant programs and secure Federal low interest loans in order to accelerate implementation of these transportation projects.

(There are twice as many representatives as senators, which this amendment would not change.) Since 1992, there have been 35 districts and senators, but the Idaho Constitution permits as few as 30 and as many as 35 districts and senators, with the number determined during redistricting (the process of redrawing legislative district boundaries after a United States census). If this amendment is adopted, the number of districts and senators would be fixed at 35 and could not be changed during redistricting.	RATE OF VEHICLE REGISTRATION FEES a.
