

## **Save Time and Money with eNotices!**

As part of our commitment to eco-friendly initiatives and simplifying tax payment processes for our residents, the Kootenai County Assessor is proud to announce the arrival of eNotices, an online statement program that allows residents to receive their future tax statements electronically to a designated email address. eNotices provides residents with the following advantages:

### **Simple Sign-Up**

Receiving electronic statements couldn't be easier and it takes fewer than five minutes to sign up for this easy-to-use system. To do so, simply find your authorization number located on your last paper statement received and then create an account at [www.enoticesonline.com](http://www.enoticesonline.com).

### **Streamlined Online Bill Pay**

Now you can view and pay your tax statements quickly all at the same place. Making online payments through your financial institution or credit card saves you time and money from traditional payment methods available with paper statements.

### **Easy to Use**

Your electronic statements are an exact replica of your print statements, which allows you to easily find the information you're looking for. Furthermore, Kootenai County Assessor will notify you through email as soon as your statement becomes available. Fast. Safe. Convenient!

### **Reduce Clutter**

Never misplace your statements again! With electronic storage of statements, your statement history is archived securely online. Your online account acts as a virtual filing cabinet, so you can always view your archived statement history online without digging through a pile of papers.

### **Constant Availability**

Going off the grid? Download your statement on your computer, tablet, or mobile device and save them for offline viewing and, if needed, print.

### **Protect your Information**

When you turn off paper statements, there's no risk of your personal information getting lost or stolen through the mail. The Kootenai County Assessor has robust online security features to protect your information online, including usernames and passwords, encryption processes that keep your data hidden during electronic transit, and automatic sign-off if your online session is idle for too long.

### **Go Green for the Environment**

Choosing e-statements conserves paper, trees and the fuel that would've been used to deliver a paper statement.

What's not to like about eNotices? Save yourself time and money and make the switch today!
