## SOLID WASTE

---

### Memorandum

**To:** Board of County Commissioners  
**From:** John Phillips, Solid Waste Director *JP*  
**Date:** November 18, 2025  
**Subject:** #221 Excavator Repairs

The Solid Waste Department would like approval from the BOCC to repair our 2013 John Deere Excavator (asset #6495) that needs repairs to the undercarriage and hydraulics system. These repairs are necessary for maintaining an ageing piece of equipment and will prolong its usefulness for our department.

We received three quotes:

Pape Machinery: \$112,580.54  
Burrco LLC: \$105,801.91  
Western States: \$100,278.84

The actual amount of the repairs may increase with each of these estimates.

The Solid Waste Department reviewed the estimates and recommends having Burrco LLC do the repair since their quote included new parts rather than reconditioned. Since the actual amount of the repair may increase we ask the BOCC to approve up to \$115,000.00 for this repair.

This expense was budgeted in 60.1.190.5.910-9025.
